Kungens Kurva, September 2008

Powerbox introduces an updated range of AC/DC external adaptors fulfilling the new low power consumption requirements.

Powerbox announces the release of its new standard AC/DC series of Switchbox externals – FRA series.

Switchbox FRA series is a collection of AC/DC external power supplies for ITE applications in power range from 5 to 180 Watts. All meets the new requirements for low power consumption requirements stipulated in CEC level IV.

“The introduction of our new CEC level IV compliant external adaptors series supports our commitment to deliver innovative products that address the needs of our customers”, said Anders Arvidsson, Business Unit Manager for Powerbox Standard products.
